

The 8th International Sino-French Sustainable Urban Transport Systems Forum

THNS 2015: Green Integrated Intelligent Transport System

25th-28th, November, 2015

Hosts

French Ministry for Ecology, Sustainable Development and Energy
Tongji University
ADVANCITY
IFSTTAR
CEREMA
ENSA Paris-Belleville
ENSA Strasbourg
EIVP City of Paris Engineering School

Organizers

College of Architecture and Urban Planning, Tongji University
School of Transportation Engineering, Tongji University
Urban Mass Transit Railway Research Institute, Tongji University
Sino-French Institute of Engineering and Management, Tongji University
PREDIM
ATEC-ITS-France
TOPOS-Aquitaine
AIGP International Workshop of Grand Paris

Co-organizers

SYSTRA
THALES Group
HUAWEI
Michelin Challenge Bibendum

Supporters

World Committee for Lifelong Learning
Fondation Prospective & Innovation
Shanghai City Comprehensive Traffic Planning Institute
Shanghai Transport and Port Research and Development Centre
Tongji University
Paris Tech
ENPC
AFCDUD
Institut pour la Ville en Mouvement

Forum Background

Sino-French Forum of Sustainable City Transportation System (THNS), is under the frame of the cooperation agreement on urban sustainable development signed by the Chinese Ministry of Housing and Urban-Rural Development and the French Ministry of Ecology, Sustainable Development and Energy in 2007. From 2008 to 2014, seven forums have been successfully held. The 8th Forum (THNS2015- Green Integrated Intelligent Safe Transport System) will be held in Paris from 25th to 27th, November, 2015.

The forum aims to promote academic exchanges and international cooperation in the field, increase the level of

transport sector scientific research and advocate the sustainable development of integrated transport systems for a mobility concerned about green and environmental protection. Personnel to participate in this forum include urban planning and management, transportation, public transportation, rail transportation, energy and environment experts and scholars, government departments, policy makers, as well as representatives of the business community.

As an international cooperation focused on Sustainable Transport, the THNS 2015 is part of the program of events supported by the Advancity Paris Region cluster for the preparation of the Conference COP21 (International negotiations for the climate).

Agenda of the Forum

25th November, Wednesday 2015 – Ecole Nationale Supérieure d'Architecture de Paris Belleville, 60 boulevard de la Villette 75019 PARIS

Urban Public Transport - **13h00 to 18h00**

Opening: Philippe PROST, Chairman of the Board, ENSA Paris Belleville
